

Get on Board. Know your risks for Hepatitis C.

Hepatitis C Risk Checklist

- Have ever injected drugs (including steroids, silicone, hormones, etc.)
- Blood transfusions or organ transplants before 1992
- Long-term kidney dialysis
- Occupational exposure to blood
- Tattoos or body piercings with unsterilized equipment
- Sharing straws for snorting drugs

If you identify with even ONE of these risk factors, you may be at risk for Hepatitis C. For more information call 1-866-917-4HEP or visit www.doh.wa.gov/cfh/hepatitis
